**Texture Spray**

---

# SXA1033

**Aerosol**

---

SXA1033 Texture Spray provides the ability to create a grained or textured appearance on a variety of interior or exterior substrates.

---

**Features**

---

- Packaged in aerosol can
- No priming required
- Duplicates a wide variety of textures

---

**Compatible Surfaces**

---

- Exterior trim parts
- Interior trim pieces

---

**Related Products**

---

- SX1004 Plastic Cleaner & Prep
- SX1041 Bumper Black

---

## Application Data

---

### Surface Preparation:

1. Thoroughly clean surface to be textured with appropriate **SX Cleaner**.
2. Lightly abrade surface with gray scuff pad.
3. Re-clean surface with **SX Cleaner**.

### Application Procedure:

1. The farther the distance, the smaller the texture, the closer the distance the larger and wetter the texture. **NOTE:** Always practice for technique and observe final results.
2. Light coats and long flash times will vary the look of the texture. Do not overload material. Proper flash times are needed to avoid losing texture.
3. The texture look can be modified with the use of a gray scuff pad or with 400 grit paper. Lightly scuff the surface, flattening out the tops of the texture beads, then wipe surface with **SX1004 Plastic Cleaner and Prep**.
4. Can be topcoated with **SX1041 Bumper Black**.

**ATTENTION:** When finished spraying aerosol products, hold can upside down and spray until valve is cleared. This will prevent clogging of the internal valve.

### Properties:

Product	Packaged VOC (lbs./US Gal.)	Volume Solids (RTS)	SQ. FT. Coverage @ 1 mil (100% transfer efficiency)
SXA1033	5.03	15.57	250
